

## Governing Authority and School Leader Annual Timeline

The timeline below represents many of the items that a governing authority and school leader should be actively monitoring or completing annually. This list is not intended to be an all-inclusive list, rather a compilation of some significant due dates and reminders. Any dates listed are to provide a general timeframe (i.e. traditionally, the item has been due on this date), please be sure to check with the appropriate source to confirm if a deadline has changed. As most items are listed in the month they are due, please review current month's items and look forward to upcoming month's items at each board meeting. The distinction between Board and School Leader is made only in a general sense; your division of duties may differ slightly, so please review all items for each month.
